Notes and features

- The Michelin Cerexbib 2 is a newly-developed tyre for large harvesting machines.
- Its contact area, which is up to 15% larger than that of the CerexBib, provides optimum soil protection.
- All Cerexbib 2 tyres are CFO tyres and therefore suitable for cyclic field operations.
- The Cerexbib 2 has a special casing construction with Ultraflex technology.
- This casing design enables up to 40 higher loading capacities at the same inflation pressure for VF tyres.
