Notes and features

- The Alliance 392 is a flotation tyre for heavy agricultural trailers, spreader trucks, agri-trucks and similar vehicles.
- The tyre was developed for on- and off-road use, whereby road use should be predominant.
- Its non-directional tread pattern provides a large contact area and optimum soil protection.
- The wide distances between the blocks ensure good self-cleaning properties.
- Inter-block bridges and a special strong rubber compound ensure even wear and a long service life.
- The all-steel casing protects the tyre against damages in difficult conditions.
