WINDPOWER·TYRE
Get Your Job Done

Notes and features

- The Windpower PRO DR76 is a drive axle tyre for trucks of the latest generation for use in regional transport.
- Its block design ensures even pressure distribution for reduced wear and a long service life.
- The special reinforced bead construction with steel core (BWC = Bead Wrapped Chafer) protects the tyre from side impact damage and optimizes the retreadability.
- Particularly high-quality, extremely strong cord plies (SHT = Super High Tensile Cord) ensure excellent handling and low rolling resistance.
- All tyres in the Pro Series are equipped with dual-layer technology, in which an outer and an underlying rubber layer complement each other perfectly.
