Notes and features

- Drive tread pattern for local and regional transport.
- The WDR 37 pattern is a further development of the WDR36 and HN355 tread patterns and combines the best features of these two predecessors in a single tread pattern.
- It provides a high degree of adhesion and traction with low fuel consumption.
- The special tread pattern ensures even wear and high mileage.
- Its optimal rubber compound and robust shoulder design provide increased resilience against collision, impact and other types of damage.
- M+S marking and snowflake symbol (3PMSF).
- Retreadable casing.
