TYRE

Notes and features

- The Sailun CITYCONVOY is an all-position truck tyre for regional and long-distance transport.
- The reinforced sidewall protects the tyre from damages caused by kerbs and from premature wear due to repeated starting and stopping in city traffic.
- The sipe design increases the contact area with the road for better grip and driving safety.
- The optimised tread pattern, the particularly hard-wearing rubber compound and high tread pattern depth guarantee a long service life.
- The shoulder notch prevents the tyre from heating up and increases durability.
