Notes and features

- The Carlisle Versa Turf is a radial tyre for use on lawns and golf courses.
- Its great flotation characteristics due to the radial construction and the rounded shoulders optimally protect the grass area.
- The especially high tread depth (up to 60% more compared with a standard R-3 tyre) provides strong traction on all kinds of soil at any time of year.
- The tread design with additional lugs between the tread blocks provides excellent self-cleaning properties.
