Notes and features

- The Carlisle A.C.T. is an ATV radial tyre for particularly rough terrain with soft to medium-hard ground conditions.
- The radial casing compensates for hazards and path damage and provides high traction and ride comfort.
- The open tread pattern with high tread depth provides good self-cleaning and grip on muddy trails.
- The strong sidewall makes the tyre particularly puncture-proof.
- Tyres in HD model (Heavy Duty) have an even stronger casing to enable higher inflation pressures and loading capacities.
