Notes and features

- The Traxion 85 is a standard tractor tyre for mid-range tractors.
- Its special tread pattern with curved lugs and rounded shoulders enables high traction while protecting the soil.
- Its flexible casing ensures a big contact area for good ground pressure distribution.
- Its special casing construction with increased volume allows for increased load capacity compared to the older generation standard tyres.
- The bead is reinforced by additional plies, ensuring optimum stability even at higher speeds or on slopes.
- Furthermore, the tyre distinguishes itself through low slip, high ride comfort and a long service life.
