ENGINEERED TO KEEP YOU AHEAD

Notes and features

- The Alliance Agriflex 354 is a row crop tyre with IF technology for tractors, self-propelled and towed field sprayers.

- As an IF tyre, it has 20% more load capacity at the same inflation pressure or the same load capacity at 20% lower inflation pressure compared with a standard tyre.

- This leads to optimal crop and soil protection.

- The tyre provides high traction and excellent self-cleaning properties thanks to the stronger and optimally shaped lugs.

- Its large contact area and steel belt construction also ensure traction and good ground pressure distribution.

- The tyre is characterised by durability, reduced fuel costs and ride comfort.
