## Notes and features

- The Nokian R-Truck Trailer is an all-season truck trailer tyre for mixed use on roads and building sites, caravans and forestry trailers.
- Its non-directional tread pattern with coarse tread blocks offers good on-road performance and good off-road selfcleaning properties.
- Its cut-resistant rubber compound protects the tyre from damages on difficult surfaces.
- The design of the main grooves with stone ejectors prevents small stones from penetrating the tyre and thus reduces the risk of punctures.
- All R-Truck tyres are characterised by very good puncture protection, even in the toughest conditions.
- When on the road, R-Truck tyres are particularly quiet and have a low rolling resistance.
