Notes and features

- The Boka Terra is a hot retreaded tyre with a typical excavator tread pattern.
- The non-directional pattern provides good traction.
- The tyre guarantees high stability and is also ideally suited to road use.
- When used as twin wheels, the guard ring prevents foreign objects from penetrating the twin tyres.
- The tyres are perfectly protected against damages caused by the penetration of stones and other objects.
- The Boka Terra can be mounted on standard as well as reinforced EM rims.
